

## **CHANGING RAIL BUMPERS ON A COMMERCIAL ABCOASTER®**

Changing out the bumpers on a commercial AbCoaster (Elite, CS1000, CS1500, CS2000, or CS3000) is a very quick and easy process. It should only take about 5-10 minutes.

- The rubber bumpers for all models of the AbCoaster® are the same. What changes from model to model is the mounting hardware thus it is very important to know the model number and serial number of the unit you are working on to ensure ordering the right kit.
- Rail bumpers may be in need of replacement despite looking fine with a visual inspection. It is best to grip the bumper and ensure that it's firmly attached and not cracked or broken in any way.
- To replace the bumpers, simply use a metric Allen wrench to undo the mounting bolt. Discard the old bolts and bumpers. Re-attach the new bumpers with the provided hardware.

If there are questions during an install for a tech, PLEASE do not hesitate to call us and discuss! We are happy to assist and make sure that every install goes smoothly. We are happy to hop on FaceTime or Zoom and video chat to make sure things are set up correctly. Just call 866-219-5335 Option 5 and we can set up a video conference.

Call for details: **1-866-219-5335**    Outside the US: **1-908-879-2713**
