CHANGING PLASTIC CAPS TO METAL ONES ON THE X3S

In some cases, early X3S units came with chromed plastic end caps for each of the foot foam pads. In high-traffic areas with heavy use, these may wear out before the padding does. One solution to this is to upgrade the end caps to metal versions.

This is easily done with a simple kit we provide (all new X3S Pro models use these end caps). <https://theabscompany.com/product/aluminum-disc-pad-end-cap-set/>

You will need 2 of the above kits and then swapping them out is as easy as unscrewing the 4 bolts at the end of each foot foam and replacing the end caps with the new larger, metal covers.

If there are questions during an install for a tech, PLEASE do not hesitate to call us and discuss! We are happy to assist and make sure that every install goes smoothly. We are happy to hop on FaceTime or Zoom and video chat to make sure things are set up correctly. Just call 866-219-5335 Option 5 and we can set up a video conference.
